## WORK EXPERIENCE

### Coach & Analyst

*Marist College (September 2017 - Present)*

- Responsible for evaluating team performance and giving feedback during game reviews
- Mediated disputes between team members by engaging student athletes in team building activities and teaching better understanding of physical, mental, and emotional responses during conflict
- Organized and oversaw administrative functions of the team such as coordinating scrimmage times and overseeing student GPAs were above the 3.0 requirement
- Motivated and encouraged student athletes to do their best during practices and games
- Discussed in-game strategy and how to improve quick thinking skills with players

### Sales Associate

*Ace Hardware (May 2017 - January 2020)*

- Recommended alternative merchandise display styles to management, which were implemented and resulted in an increase in sales
- Ensured customers were satisfied with their experience
- Strengthened interpersonal communication skills through customer service

## PROJECTS

### Cummins Compiler

- Recursive descent parser based on a LL(1) grammar
- Displays step-by-step output of all phases of compilation as well as an abstract and concrete syntax tree
- Outputs machine code understood by operating systems

### Password Verifier

- Java terminal program to determine if a password is strong or not
- Uses definite finite automaton method

### Acme Corporate Directory

- Single-sign-on web application of which I saw development over as project manager consisting of a five man developer team
- Used Agile development method to keep team on track and quickly address issues
